## About Us

**RAFTAAR GROUP** has been operating its functions since 2013 **RAJKOT** and had been started with just single one product at 2019 with proprietorship firm **RAFTAAR GROUP OF COMPANY**. Now we are become **RAFTAAR HOME APPLIANCES PVT. LTD.** from 2021 and we have range of home appliances & electronics prime quality products with prominent in various sectors. We are the pioneers of the ideal Indian appliances product with an outlook focused on sustainability. We aim to reach more houses, kitchens and bathrooms, aim to provide efficient and affordable appliances to our consumers. **RAFTAAR HOME APPLIANCES PVT. LTD.** is an ISO 9001-2015 certified company and believes in world class service levels to all its customers. Our Head Office is based in Rajkot, Gujarat. A team of young professionals take care of the administration and customer support activities. We have a very effective customer grievance redressal system.

### Our Mission

**We will strive to become leading manufacturers of Home Appliances products by :** Consistently raising the standards in product utility, innovation and durability. Promote a culture of excellence, transparency and ethics within the company and in our dealing with our associates. Contribute positively towards uplifting society.

### Our Vision

To provide consumer new innovation, technology, best product quality, service at affordable price and To create a company that serves everything according their needs.

# TRIPLE SHIELD

## PROTECTION FROM HARD WATER

It Protects The Tank From Corrosion With The Help Of Advanced Coating Developed By Baking The Tank Above To 875°C Allowing Tank To Function In Tough Conditions Of Hard Water

Acts As A Safeguard & Protects The Tank From Corrosion

33% Extra long life as it has excellent oxidation resistance even in high temperature and thus has anti scaling property

### Smart energy management

Smart design with Standby cut off that consumes less electricity

### 8 bar pressure

Suitable for high-rise buildings

### Extra safe

Precision sensing device with capillary type thermostat and thermal cut out that keeps all parameters in check for protection against electric shocks and auto-off function in case of malfunction

### 5 star rated energy efficient

High Grade Eco- friendly Puf insulation ensures high heat retention and thus reducing your electricity bills

## QUBIC

Available In: 15 / 25 LTR.

Wattage: 2000W

Superior Glassline coating

Incoloy heating element

Shock & Rust Proof ABS Body

Advanced 3 level precision safety

Energy saving Insulated PUF

8 Bar pressure

Model No.	Capacity (L)	Product Side (mm)	Packing Dimension (mm)	N.W (kg)	G.W (kg)

# STARCO PRIME HORIZONTAL

Available In: 70 / 100 LTR.  
Wattage: 3000W

-  Incoloy heating element
-  Longer Tank Lifespan
-  Advanced 3 level precision safety
-  Shock & Rust Proof Body
-  Auto Cut - Off
-  Swirl Flow Technology
-  6.5 Bar pressure

## WARRANTY

- 5yrs Tank

Model No.	Capacity (L)	Product Side (mm)	Packing Dimension (mm)	N.W (kg)	G.W (kg)
SCP-70	70	415x435x880	490x450x950	13.3	17.5
SCP-100	100	—	—	—	—

 **Tank Coating**  
Tanks helps to Store Different Capacities of Hot Water Coating Prevents Tank Material from Getting Rust & Leakage

 **Thermostat & Thermal Cut Off**  
Provide safety to consumer, preventing water temperature exceeding desired limit

 **Powerful copper heating element**  
These water heaters have 1200 gm superior heating element for faster heating. Achieve 45°C temperature in 10 mins

 **Smart energy management**  
Smart design with Standby cut off that consumes less electricity

 **5 star rated energy efficient**  
High Grade Puff insulation ensures high heat retention, thus reducing your electricity bills

# STARCO PRIME

Available In:  
25 / 35 / 50 / 70 / 100 LTR.  
Wattage: 2000W / 3000W

### Ultrathin Special Tank

Featuring a high-grade 304L Stainless Steel tank with a no weld line which reduces the chances of tank leakage thus providing longer life.

### Thermostat & Thermal Cut Off

Provide safety to consumer, preventing water temperature exceeding desired limit

### Powerful copper heating element

These water heaters have 1000 gm superior heating element for faster heating. Achieve 45°C temperature in 2 mins

### Smart energy management

Smart design with Standby cut off that consumes less electricity

Shock & Rust Proof

Compact And Portable

Auto Power Cut Off

Easy To Carry

Time And Power Saver

No Extra Plumbing Required

Polypropylene Body

## CLASSY

Available In: 1 LTR.

Wattage: 3000W

### WARRANTY

BLDC

# Ceiling Fan

अब खुसियों की हवा चलेगी  
**RAFTAAR** से...

SAVE UP TO  
**65%**  
ENERGY

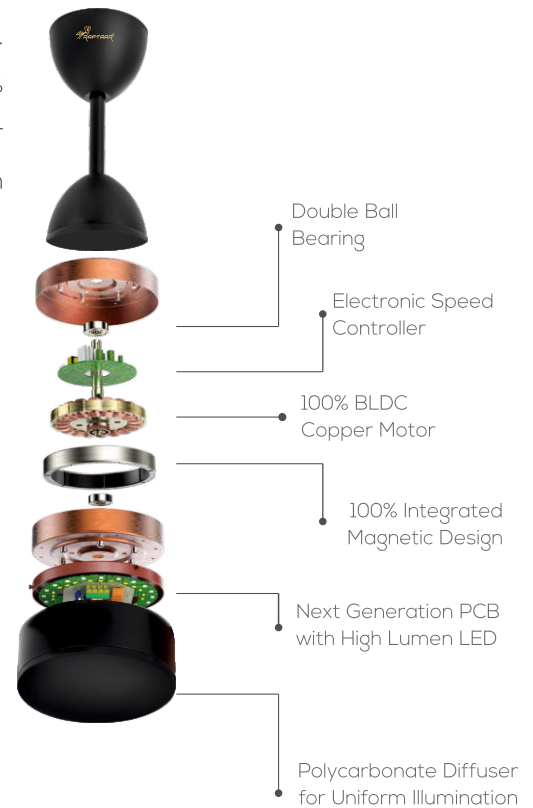

We all know that if we save energy today then tomorrow energy will save us. On the basis of this concept, we developed BLDC Fan which saves upto 65% on your electricity consumption. We have a wide range of models to suit your home, schools, offices, hospitals and industrial plants etc and the same can be operated either by the regulator or by smart remote control.

## ABOUT BLDC TECHNOLOGY

BLDC stands for Brushless Direct Current. BLDC motor has no mechanical brush for commutation of the windings. Commutation is deployed with the help of smart electronics. The input voltage provided is 230V AC which is converted to 24V DC by a SMPS. The fan runs internally at 24V and consumes just 32W at full speed.

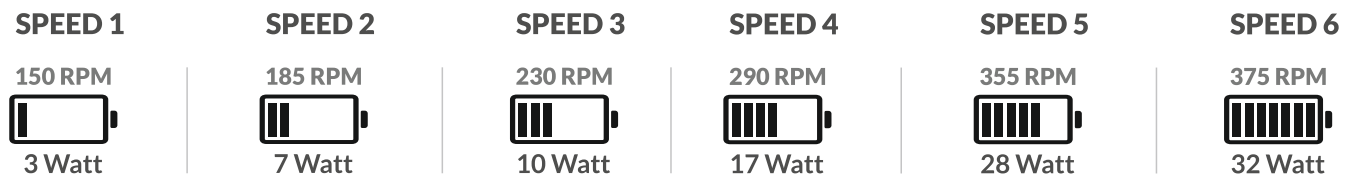

## ADVANTAGES

- Consistent performance even at low voltage and power fluctuation.
- Multiple speed control gives flexibility.
- No humming noise even at low speed.

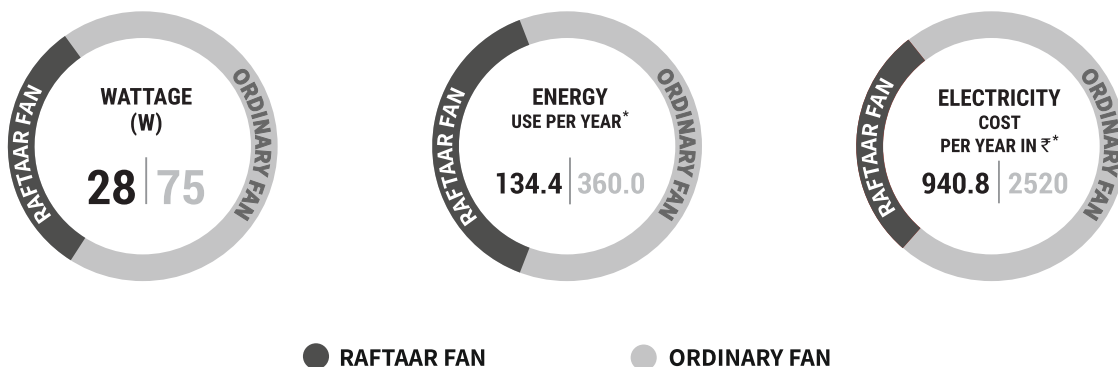

## POWER CONSUMPTION AT DIFFERENT SPEED

The Power Consumption Of The RAFTAAR BLDC Fan Varies With The Speed At Which It Is Set.

## COMPARE WITH ORDINARY FAN

### \*Assumptions:

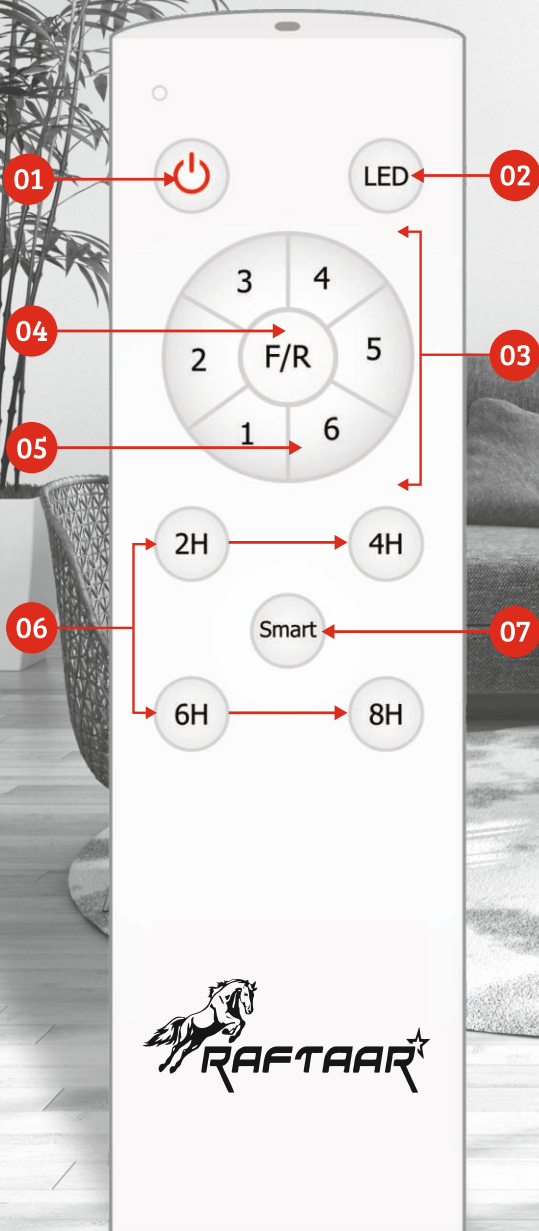

usage of 16 hours/day, for 300 days a year with electricity rate of ₹ 7/unit

## Features of our Remote Controlling System FOR 230V AC & HYBRID FAN

- Turn On/Off Fan
- Turn On/Off LED Light (0.5 W)
- Speed Switches 1 to 6
- Reverse Rotation For Hot And Cold Air Cirulation
- On Speed 6 (32 Watt, 375 RPM)
- Timer Mode, Turn Off Fan After 2, 4, 6, & 8 Hour
- In Smart Mode Automatically Reduces Speed Off Fan Up to 12 Hour From Fast To Low

PRESENTING  
**FIRST TIME**  
IN INDIA

## TRUE INVERTER BLDC FAN

We are very excited to announce that we are the first time in India introducing a true inverter BLDC fan with a lithium iron battery. That will give you 3 to 4 hours of battery backup. It can give consistent performance even at low wattage and power fluctuation.

3 to 4 Hours of battery backup

8 to 10 hours of charging time

55 watt with battery charging

Powder coated Aluminium die cast body & leaves – No rust

32 watt only with high efficiency **BLDC** motors

lithium iron battery with 300 life cycle

Consistent performance even at low **WATTAGE** and power fluctuation

Smart algorithms implemented to precisely tune the motor in real time

Available Placement Of  
Lithium Iron Battery

Available With  
Smart Remote Control
